PROFESSIONAL SUMMARY

Highly driven .NET Developer with more than one years of experience building scalable applications using C#, .NET Core, ASP.NET Core, SQL Server, and cloud services (AWS, Firebase). Strong expertise in back-end development, RESTful APIs, and containerized environments. Skilled in writing clean, maintainable code using industry best practices and collaborating across cross-functional teams. Eager to work with modern cloud-native tech including Azure/AWS, Docker/Kubernetes, and CI/CD pipelines.

PROFESSIONAL EXPERIENCE

Software Developer Intern | GAO Tek Inc., Ontario, Canada

Jan 2023 – Apr 2023

- Optimized user experience for a mobile app using Flutter, and Dart.
- Designed and implemented features such as **OAuth-based Google Sign-in**, MFA, and messaging alerts using cloud services.
- Participated in debugging, troubleshooting, and improving existing code following clean coding practices.
- Documented requirements, user stories, and back-end architecture; contributed to Agile ceremonies.
- Collaborated with developers/designers to deliver features and ensure seamless integration across the stack.

Full Stack Developer | iAriana Technologies, Pune, India

Jan 2020 – July 2021

- Developed back-end modules using **C#**, and optimized application performance by **30%**.
- Designed and built **RESTful APIs** improving front-end/back-end communication efficiency by **20%**.
- Integrated and managed **MS SQL Server** for database operations, writing optimized queries.
- Built and maintained scalable server-side logic and components following OOP concepts..
- Designed UI components using **HTML, CSS, JavaScript**, and collaborated in full life-cycle development.
- Worked within Agile SCRUM teams and participated in testing, code reviews, and deployment cycles.

TECHNICAL SKILLS

| Category | Skills |
|-----------------------|---|
| Backend & Languages | C# (Proficient), .NET Core, ASP.NET Core, Java |
| Cloud Platforms | AWS (EC2, S3, Elastic Beanstalk), Firebase |
| Databases | MS SQL Server (Proficient), Firebase NoSQL |
| DevOps & Cloud-Native | Docker, Basic Kubernetes (orchestration concepts), REST APIs, Microservices |
| Frameworks & Tools | Entity Framework, .NET MVC, Bootstrap, Postman, Git/GitHub |
| Other | Linux/Ubuntu, Shell Scripting, PowerShell (basic) |

PROJECTS

BulkyBook Web – ASP.NET MVC Application

- Built a full-stack web application using ASP.NET MVC, C#, MS SQL Server, implementing CRUD operations.
- Applied clean architecture practices and Bootswatch for UI enhancements.

Kirpa Auto Tech – Windows Application (C#)

- Developed a garage management system; led a team of 4 managing planning, architecture, and feature development.
- Designed database schema, implemented modules for inventory, salary, and service history management.

Calculator – RESTful APIs

- Built REST APIs supporting JSON/XML using PHP, JavaScript, tested via Postman.
- Deployed on AWS and implemented structured API versioning and validation.

AG Cars – ASP.NET Web Application

- Developed modules for car listings, appointments, and order management using ASP.NET & MS SQL Server.

EDUCATION

Vanier College, Montreal, Canada

Post-Graduation Diploma – Software Development

May 2021 – May 2023 | GPA: 3.86/4.00

Sardar Patel University, Gujarat, India

Bachelor of Computer Applications

Jun 2017 – Aug 2020 | CGPA: 9.42/10

SOFT SKILLS

Problem-solving | Communication | Teamwork | Adaptability | Time Management
